District Government Employees FCU Selects eDOC

MIDWAY, UT and GRAND RAPIDS, MI – September 2nd, 2009

eDOC Innovations recently announced that District Government Employees FCU (DGEFCU) has selected eDOC as their provider for electronic document management. DGEFCU, a \$40MM+ Federal Credit Union located in Washington DC, has over 10,000 members and uses CU*Answers as their data processor. By selecting eDOC the Credit Union solidifies its strategy in using CUSOs for mission critical operations and processes.

"We selected eDOC Innovations for several reasons. First, they have an excellent history in providing innovative tools to credit unions for electronic document management solutions. Second, they are a CUSO which provides us a depth of confidence we couldn't get through a normal vendor of services. Third, they were affordable. And, most importantly, forth, their complete line of solutions are just what we needed since they complete our strategic foundation to become paperless," states Carla Decker, President and CEO of District Government EFCU.

District Government Employees FCU is scheduled to implement eDOC's in-house COLD system for Statements and Reports as well as in-house digital Receipts and Forms in Q4 of 2009. They will also be utilizing eDOC's CheckLogic solution for Check21 check image transfer, processing and archiving.

About eDOC Innovations, Inc.

Since 1992, eDOC Innovations, Inc. has delivered a comprehensive suite of e-Document strategy solutions, including eSignature automation, workflow and capture, advanced document imaging, check21 and remote deposit check processing and a complete eCommerce consumer document portal for credit unions and other organizations across the country. The company's offerings supports 74 different data processing and LOS systems spanning integration, extensive networking solutions, and disaster recovery solutions. With industry acclaimed DocLogic™ and idocVAULT™, eDOC Innovations is a national leader in providing paperless solutions to more than 400 credit unions.
